

Mendocino Coast Botanical Gardens' carts are available on a first-come, first-served basis and are for individuals who cannot physically walk the Gardens. The driver must be mentally and physically able to operate the cart.

Electric Cart User's Wavier of Liability

I have been instructed in the safe operation of the 1-seat electric cart, which I am borrowing from Mendocino Coast Botanical Gardens (free to members / \$ 10.00 to non-members). The carts have a weight limit of 400 pounds.

No one else will operate or ride the cart while in my possession. No children or pets may ride on my lap. I am at least 18 years old. As with all vehicles and machinery, I recognize there is an inherent risk of bodily injury in using the cart, therefore:

If the cart is damaged by misuse, I understand that I will be responsible for related repair costs. Use of the cart will be revoked if it is observed that the above rules are being abused. By signing below, I release Mendocino Coast Botanical Gardens, its directors, officers, employees and volunteers of any and all liability while in the use of the electric cart.
